Farrier Sponsorship

What is Farrier care?

- A Farrier is a trained professional that **trims and balances** hooves
- Horses hooves grow like our nails they need to be trimmed **every 6 weeks**
- Some horses require shoes for **medical reasons**, shoes provide extra support.
- **Every 6 weeks** the hoof trim is \$40 & the hoof trim and shoes is \$125

Why is Farrier care important ?

- **Domestic horses vs. Wild horses-** Depending on the type of terrain a domestic horse travels on determines the kind of farrier care needed. Wild horses are always on the go, the rocky terrain allows the hoof to wear naturally. Domesticated horses are usually in a barn and pasture.
- If a horse receives no hoof care the bones in their hooves move and deteriorate, leading to excruciating pain and sometimes **resulting in euthanasia**.
- All of this makes a difference in keeping horse's hooves healthy, there is a saying in the equine world "No Hoof No Horse"
